

**“My students deserve better than this—crowded classrooms, fewer resources, lower teacher pay. Our schools can’t afford to lose millions of dollars because of private school vouchers.**

**That’s why I’m voting REPEAL on Measure 435.”**

# VOTE REPEAL ON MEASURE 435

## Keep Public Funds in Public Schools

Public schools shape our communities, educate our children, and build our future. But the Nebraska legislature passed a law allowing private school vouchers to funnel millions of dollars from public schools, forcing them to stretch already tight budgets. Vote repeal to:

- ✔ **Prevent Property Tax Hikes:** Without repeal, this law will continue to divert money from public schools to unaccountable private schools, forcing our communities to raise already high property taxes to make up for the lost funding. We can't afford to pay for two school systems—one public and one private—when we are already struggling to pay for the one we have now.
- ✔ **Keep Public Money in Public Schools:** A repeal vote stops legislators from sending \$100 million of taxpayer money to unaccountable private schools over the next decade. The state receives little information on how these private schools use the millions of dollars in public funds they receive.
- ✔ **Support Fairness in Education:** Every child deserves access to a good education and 90% of Nebraska kids attend public schools. This law uses public tax dollars to fund selective private schools, which are not held to the same transparency and accountability standards as public schools.

**VOTE EARLY UNTIL NOV. 4 | ELECTION DAY IS NOV. 5 | POLLING HOURS ARE 8AM – 8PM CT AND 7AM – 7PM MT**
